Tile Series
CONTROL PANEL

Tile is a series of intelligent control panels that has push-button keypads, OLED multifunctional panels, socket panels with USB ports and emergency button panel.
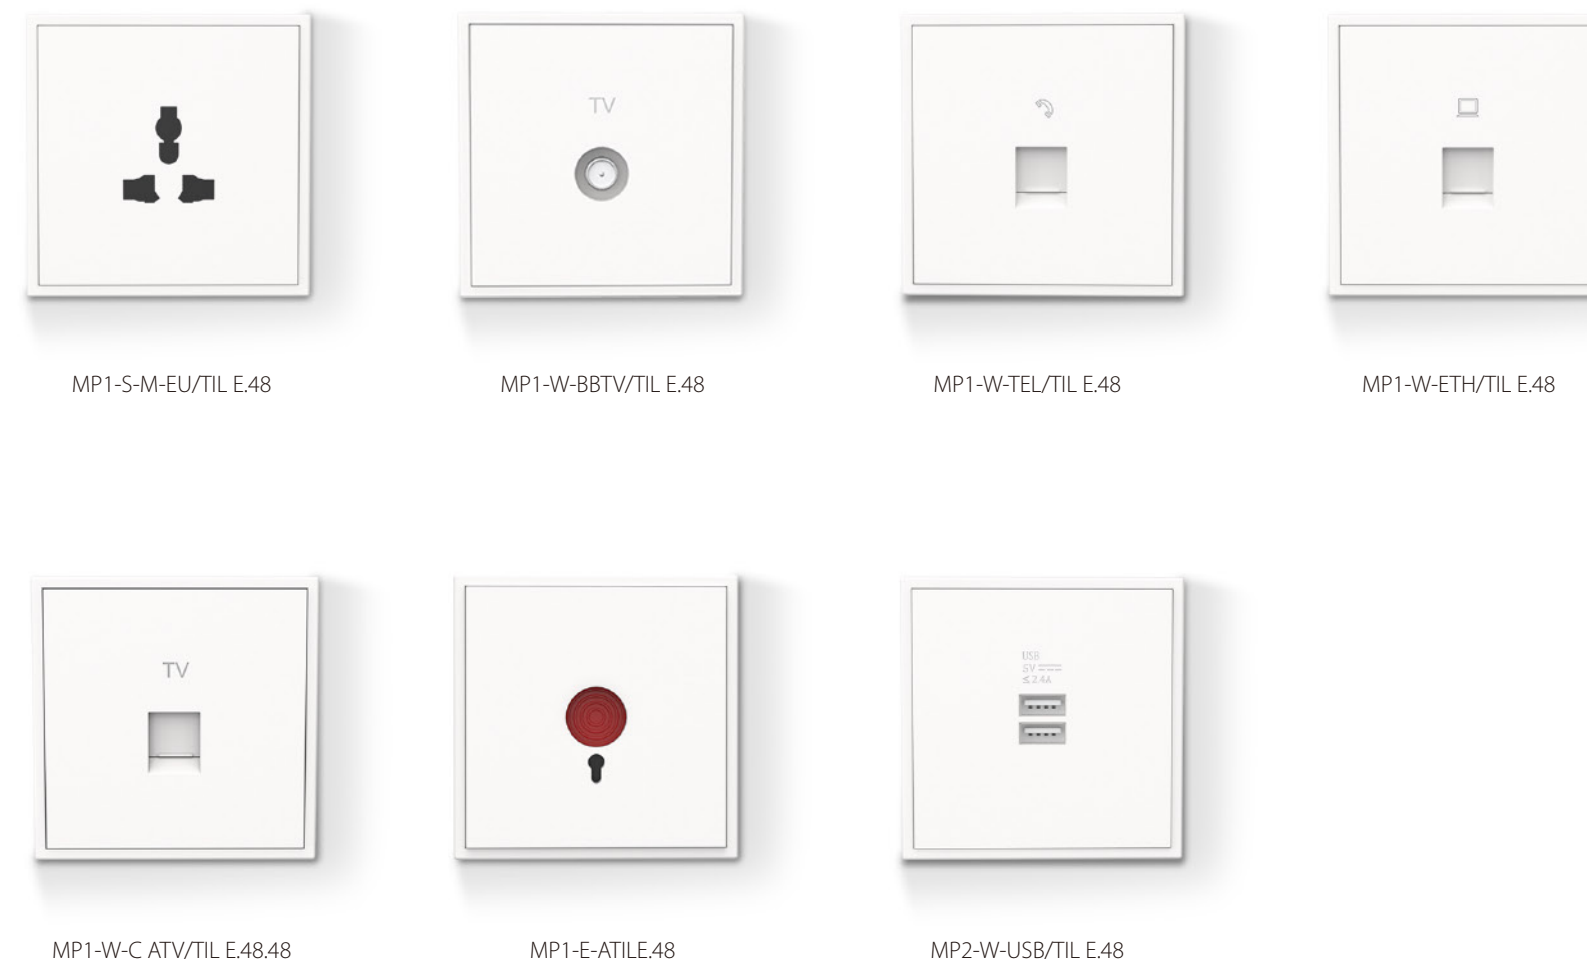

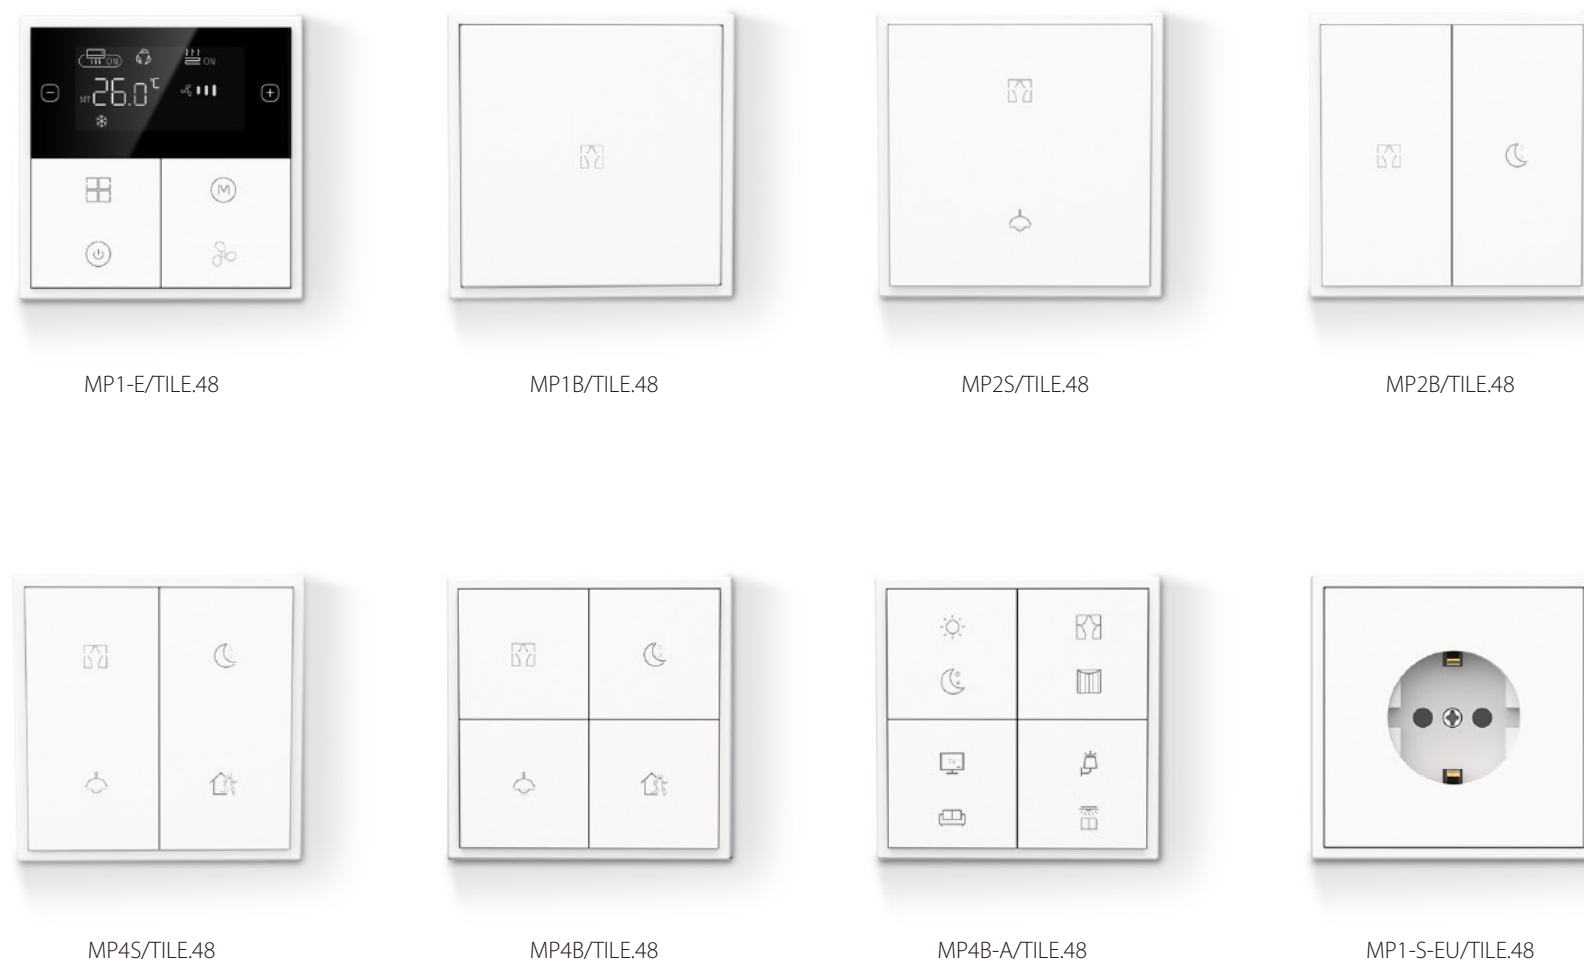

Its rectangular or square buttons are just like little tiles paved on the surface. It is able to keep the walls in a consistent and beautiful look while meeting various requirements of functionality.

## *Flexible combinations for functionality*

The basic unit of Tile is a keypad or socket panel in EU standard. You can use just one unit if it meets your requirement, or combine multiple units to serve more functionality in a specific area.
